

Safety Material

For the love of detail and safety.

WINTERSTEIGER proudly introduces our safety material specific catalog. From our catalog of 1800+ items, these selected items are featured to help keep staff and customers safe during pandemic times. We have worked hard to add to this collection and ensure that the products highlighted here are available for at-once shipping. After all, it's the little things that make the difference, especially in these uncertain times!

Over Ear Masks

Our Wintersteiger Over The Ear Face Masks have elastic straps on both sides of the mask to wrap securely behind each ear. We suggest this mask if you are looking for a mask that easily and quickly comes off and on. This is also a good option if you want a mask that doesn't interfere with your hair and the back of your head.

WINTERSTEIGER Face Covering

Designed for the CDC's recently modified its stance on wearing a fabric face covering where other social distancing measures are difficult to maintain. This fabric face mask cover is made out of 2 layers of 4.3oz 100% polyester knit jersey material. It features an internal pocket that can be accessed by both sides to accommodate a PM2.5 filter insert or surgical mask. This mask can be utilized by itself in casual environments such as retail settings to block large particulates such as a random cough or sneeze. Can be used multiple times, and should be sterilized (laundered) after each use to minimize risk. All our masks are made right here in Salt Lake City. Medium is designed to fits most average people, large for large heads and larger humans. Top ban loops overhead, bottom bands ties behind head. Designed for snug fit, face covering are not returnable.

57-100-411	Face Covering Medium	pcs.	\$	13,00

WINTERSTEIGER Face Covering Filter Inserts 10 pk

These PM2.5 filters are a great addition to our face mask covers. They simply slide right in either side. These filter inserts feature 5 layers of protection with a carbon activated inner layer sandwiched between 2 layers of cotton fabric and a melt blown layer to block most particulates larger than 2.5 microns. These filter inserts are intended to be used for up to 48-72 hours (depending on the level of pollution) before changing out. Filter Inserts are not returnable.

Safety-Walk Wet Area Matting, Blue, 3 ft x 10 ft.

Safety-Walk Wet Area Matting has an open mesh structure that allows water to run through so that the surface stays drier than the surrounding area. Z web construction makes this a great choice for heavily trafficked wet areas, around tuning equipment and provides uniform foot support. Matting stays drier than surrounding area to help minimize slips and falls and will not flatten over time.

Safety Stripe Tape Black/Yellow, 2 in x 36 yd, 5.4 mil.

Mark and identify safety hazards with our black and yellow 3M™ Safety Stripe Tape. Designed with unique stretch properties, this tape conforms to irregular, curved and convex surfaces while remaining stretched and without lifting after application. The rubber adhesive has quick stick and excellent holding strength on many surfaces. This combination of the backing and adhesive properties help to prevent edge lifting, keeping the tape in place. The tape removes cleanly in one piece from most surfaces to help reduce clean-up and labor costs. Apply to a clean, dry surface at temperatures between 60°F (16°C) to 80°F (27°C).

Vital Oxide

Vital Oxide is our environmentally friendly Disinfectant Cleaner and Odor Remover which is great for everyday disinfecting and sanitizing. Vital Oxide is super effective at killing mold, mildew, bacteria, and viruses and eliminating odor. Kills 99.9% of bacteria and viruses, kills fungus, mold, and mildew at the source and inhibits growth, sanitizes 99.999% of bacteria on food-contact surfaces with no rinse required, and eliminates odor at a molecular level, not by masking with fragrance. Vital Oxide is a Hard Surface Disinfectant and Soft Surface Sanitizer.

- **Vital Oxide has been approved by the EPA for general use against SARS-CoV-2, the coronavirus that causes the Coronavirus Disease 2019 (COVID-19). Follow the directions on the label for use against Norovirus Feline Calicivirus** and Canine Parvovirus (Strain Cornell-780916, ATCC VR-2016***) on hard, non-porous surfaces.**
- Full strength and ready to use
- On hard surfaces, for disinfection, apply at full strength and leave for a 10-minute dwell time.
- On soft surfaces (Helmets and Boots), for sanitization, apply at full strength or up to a 5:1 dilution. 5 parts water:1 part solution. There can be bleaching so to be safe, do a color test if desired.
- EPA-registered hospital disinfectant with lowest toxicity category—gentle enough for daily disinfecting and sanitizing
- NSF-registered "no rinse on food-contact surfaces" sanitizer
- Heavy duty odor eliminator—gets rid of bad odors by attacking the source of the problem, not by masking
- Soft-surface sanitizer
- Hypo-allergenic
- No volatile organic compounds (VOCs)
- No harsh chemicals, non-irritating to skin, no nauseous fumes

Professional Cordless Electrostatic Sprayer

Professional Cordless Electrostatic Sprayer allows the user hours of spraying time without the hassle of dragging a cord. In addition, it is designed to save time and labor, spray less liquid, and cover more surfaces. Patented technology provides an electrical charge to solutions, allowing them to wrap conductive surfaces with an effective and even coverage. Double-charged particles envelope all conductive surfaces – shadowed, vertical and underneath.

Key Features:

- Patented electrostatic charge penetrates chemical providing a thin even spray pattern on all surfaces
- Weighs only 5.9 lbs. with a full tank
- Cordless convenience allows for effortless movement room to room
- 3-in-1 nozzle lets you set the spray particle size to match your application
- Easy Fill HDPE 33.8oz refillable tank allows you coat up to 2800 sq. ft. on 40 micron setting
- 16.8V Lithium-Ion battery allows you to run between 20-80 tanks on a single charge

57-304-011	pcs.	\$	770,00
------------	------	----	--------

Professional Cordless Electrostatic Backpack Sprayer

Professional Cordless Electrostatic Backpack Sprayer is designed to allow the professional to cover up to 23,000 square feet on a single tank of fluid

Key Features

- Patented electrostatic charge penetrates chemical providing a thin, even spray pattern on all surfaces
- Removable Easy Fill HDPE tank holds 2.25 gallons of chemical, allowing you to coat up to 23,000 sq. ft.
- Cordless convenience allows for effortless movement room to room
- 3-in-1 nozzle allows you to set particle size to match your application
- 4ft hose with quick release valve allows for comfortable reach and maximum maneuverability.
